

IPCA Launch New Precast Concrete Products Brochure

The Irish Precast Concrete Association recently launched a new brochure entitled Precast Concrete Ideas, Products and Solutions. The brochure profiles Ireland's leading precast concrete manufacturers, their product range and contact details.

ICF Launches New Thermal Mass Brochure

The ICF's new Thermal Mass brochure is an essential document for building designers and their clients. It outlines the principles of thermal mass and defines all related scientific terminology. The brochure has been prepared by UCD/ERG research student Rory Walsh,

sponsored by the Irish Concrete Federation and is particularly important in the context of the Energy Performance of Buildings Directive.

To receive a free copy of the above brochures contact:
The Irish Concrete Federation.
